

Pipeline Pathways

Vegetation Work in Your Neighborhood

Quick Facts

- Certain trees and large shrubs in the area above the pipe can interfere with PG&E's safe operation of the gas pipeline
- PG&E has identified trees that will need to be removed in sections of the Horse Hill Open Space near Vasco Court
- The removal work is scheduled to begin September 9th and take one day to complete
- There will be no interruption of your gas and electric service

Contact Us

- For any questions about this project, please contact your local PG&E representative Gregory Gillis at **(415) 973-2137** or by email at g1gf@pge.com
- To learn more about PG&E's efforts to maintain ready access to our pipeline, please visit us at www.pge.com/pipelineaccess or call the PG&E Land Department at **(877) 259-8314**

Horse Hill Open Space, Mill Valley

As part of PG&E's ongoing focus on safety, we regularly patrol, inspect and survey our natural gas transmission pipeline. It is common for sections of our pipeline to travel underground and maintaining the area above the pipeline and ensuring ready access is a key part of our ability to safely operate the pipeline. Certain trees and vegetation in the area above the pipeline can interfere with PG&E's ability to maintain, inspect and safely operate our pipeline.

After a recent survey in the Horse Hill Open Space located in the City of Mill Valley, PG&E identified trees and incompatible vegetation in the area above the pipeline that need to be removed.

What to Expect

PG&E contractors will use care and consideration throughout the tree and vegetation removal process. During the day, residents can expect to see PG&E and contractor trucks parked in the area, and may hear heavy construction equipment noise. The work area will be marked off with proper traffic and pedestrian safety cones and warning signs. Mechanical hand equipment will be used, and where feasible the wood and debris will be hauled off site, or run through a chipper and reused.

Work Hours and Schedule

This work is scheduled to begin on September 9, 2013, along an approximate .04 mile segment in the Horse Hill Open Space near Vasco Court (as shown in the map below). The vegetation removal work will be conducted between the hours of 8 a.m. and 5 p.m. and is expected to take one day to complete.
